Three weeks ago today we celebrated, as a Marist community, the Feast Day of St Marcellin Champagnat. These days are so important because they tell us a lot about who we are. The legacy of St Marcellin is significant and we are a part of that legacy and have been for over ninety years. While we are, and certainly should be, very proud of our own tradition as a Marist school, I think it is good for us to reflect from time to time on the fact that we are part of a much bigger story. The day on which we celebrate our Founder is such an occasion.

An example of Marist work outside of Australia which I found most inspiring when I read about it earlier this year is in Aleppo, the second biggest city in Syria. You would have no doubt read about or seen footage of the carnage which has been unfolding in Syria since March 2011 – over 200,000 deaths, tens of thousands of amputees and other serious injuries and the displacement of millions. Aleppo has borne the brunt of so much of the fighting and it is a city on its knees. The scenario seems one of hopelessness and yet, in the midst of the suffering, there are rays of sunshine and beams of hope.

The Marist Brothers have been present in Syria since 1904 when four Marist Brothers arrived in Aleppo to run a school for minority groups and the poor. Throughout history the people of Syria have ridden the violent waves of political instability and conflict that has more recently seen the country torn apart by war.

For the past 111 years the Marists present in Syria have journeyed with the local people and have consistently remained at the service of the young and the poor. This has evolved over the past four years to also include providing the basic necessities of food, medicine and shelter to those affected by the escalating conflict.

Currently, the Blue Marists (as they are called) are running the following programs and projects in Aleppo:

- Housing program for the displaced – 57 displaced families have been assisted recently
- Monthly distribution of food baskets
- Provision of clothing, mattresses, blankets and kitchen utensils
- Distribution of shoes to children
- Coordinating over the past two years the ‘Civil War Wounded’ program working with doctors and the Sisters of St Joseph of the Apparition to assist hundreds of patients who are victims of the war
- And of course, the high priority of caring for and educating the youth through;
  - ‘I Learn to Grow’ and ‘I Want to Learn’ programs for preschool children
  - ‘Skill School’ for teens
  - ‘Tawassol’ for young mothers
  - ‘Marist Institute for Training’ (MIT)
In a recent letter from Aleppo, published in the Marist News, Nabil Antaki writing on behalf of the Blue Marists, writes this in answer to the question of why stay and work with the people in such awful conditions.

The inhabitants of Aleppo who stay give us lessons of courage and reasons for hope. When we see them do any work to survive, send their children to school and to college despite the insecurity, leave each morning their home without any guarantee of not being hit by a bullet from a sniper on the street, stay home knowing that the next mortar may fall on their building, day by day, trusting only in themselves and in God … Yes, when you see their courage and resilience, it silences our unanswered questions and encourages us to continue.

The people of Aleppo and those who work with them, including the Blue Marists, need our prayers and our support. As part of the worldwide Marist network, it is good to have an awareness of these other works and where possible, encourage and support our fellow Marists in providing for those desperately in need. If you are interested in reading more about the Blue Marists in Aleppo, or indeed if you feel you could make a financial contribution to assist with the programs operating there, you can access information through the Marist Solidarity website at maristsolidarity.net.au

As we reach the halfway point of the year I would like to wish all in our community a safe and restful break. I thank the staff for their hard work during the course of the semester, you the parents for your support and the trust you place in us, and of course the boys – for their cooperation and commitment to working with the staff both inside and outside the classroom.

I would also like to announce that Ms Sonia Curtis, Religious Education teacher and Assistant Religious Education Coordinator at the College has been appointed Religious Education Coordinator at St Clare’s College Waverley for twelve months beginning next term. I congratulate Sonia on her appointment and wish her well. Mr Gabrielle Tuchi has been appointed to take Ms Curtis’ classes and so we welcome him into our community for the next twelve months.

Wishing you every blessing for the semester break.

Mr John Hickey
Headmaster

OLD BOYS’ MASS & LUNCHEON

Saturday, 5 September 2015
$70 pp | 10.00am College Tour
11.00am Mass | 12.30pm Meet at Coogee Surf Club

DEPUTY HEADMASTER PERFORMANCE REVIEW AND CONTRACT RENEWAL PROCESS

All families should have received an email inviting them to contribute towards a confidential survey for Mr Peter Buxton’s contract renewal.

The survey contains multiple-choice questions and free-response questions, based on the Assistant Principal’s Role Description.

The survey will take approximately 20 minutes to complete and we encourage you to contribute. Survey closes Tuesday, 30 June 2015.
From the Deputy Headmaster

I would like to give you details of some of our upcoming events in Term 3. Further details of these events are on the College Calendar on our website.

**JULY**
- 15 + 22 July: Year 7 - 11 Parent/Teacher interviews
- 16 July: MCC Semi Finals
- 17 July: 2015 HSC Showcase evening
- 23 July: MCC Grand Finals
- 27 July – 10 August: Year 12 Trial HSC Exams
- 31 July: Staff Development Day (Student Free Day)

**AUGUST**
- 3 - 7 August: Activities Week Years 7 – 11
- 14 August: Blessing and Opening of New Buildings
- 18 August: Sports Photos Day
- 20 August: MCC Athletics Carnival
- 28 August: “Men That Matter” Mass @8.00am
- 28 August: P&F Function – TGIF Social Night

**SEPTEMBER**
- 3 September: MCC Volleyball Day
- 5 September: Old Boys Mass and Luncheon
- 3 - 11 September: Year 11 Examinations
- 17 September: Year 12 Graduation / Term 3 concludes

As Parent/Teacher Interview afternoon begins at 12.30pm on both Wednesday July 15 and 22, dismissal for all students will be at 12.05pm at the conclusion of Period 3. The only school special bus that will arrive is the 400 and three of these buses will be available for students at this time.

MCC Grand Finals is an all day event on Thursday, 23 July. Depending on who we get into which final will depend on who we send as supporters. A letter regarding this will be sent home as soon as details are available.

**THURSDAY, 17 SEPTEMBER**
On this day, the College will celebrate the Graduating Class of 2015. Year 12 will commence their day with breakfast followed by Mass at 9.30am, a whole school Graduation Assembly at 12.00pm then a Graduation dinner that night. The rest of the school will have an alternate timetable on this day. School will begin at the usual time with Homeroom and shortened Periods one and two. Following Period two, Years 7-11 will form a guard of honour for our Graduating Class before moving to recess and then assembly. Dismissal on this day will be 1.30pm and I have a very clear expectation that every boy is at school on this day.

Term Three begins on Monday, 13 July and it is a Day One. Winter uniform is still the requirement in Term 3 and students must return with an appropriate haircut.

I would like to wish everyone a very nice break and hope that families find some extra time to spend together and enjoy it with one another.

Have a nice break.

Mr Peter Buxton
Deputy Headmaster
From the Director of Teaching & M-Learning

PARENT / TEACHER INTERVIEWS

In Weeks 1 and 2 of next term, Wednesday 15 July and Wednesday 22 July, the College will be conducting the Years 7-11 Parent / Teacher interviews. The interviews will be conducted in the Marist Centre from 12.30pm until 7.30pm and will be a vital opportunity for Parents and Caregivers to obtain critical feedback regarding their son’s Semester One progress.

Access to the online booking system is via the College’s Parent Portal, which can be found at: https://sentral.marcellinrandwick.catholic.edu.au/portal/login

REPORTS

At the interviews, Parents and/or Caregivers will be able to collect the Semester One Academic Report. This document reports on your son’s Assessment Mark (or Examination Mark for most Year 11 courses), Assessment Rank and Assessment Average for their course having completed Semester One.

Outcomes based reporting describes the level of performance achieved in key areas of the course. Our aim is to allow students to reflect on their achievements and set goals for further learning. The standards achieved by students are derived from a variety of tasks and teacher observation.

ASSESSMENT MARK: Reporting on course outcomes is as per the BOSTES Common grade scaling. In brief:
A – Extensive knowledge; B – Thorough knowledge; C – Sound knowledge; D – Basic knowledge; E – Elementary knowledge

More information on the common grading scale can be obtained from the NSW Board of Studies, Teacher Educational Standards website http://arc.boardofstudies.nsw.edu.au/go/gen-info/

OVERALL ACHIEVEMENT GRADE: Each student also receives an overall Achievement Grade for each course studied.

PERSONAL PROFILES: Feedback in terms of your son’s approach to his studies is reported via the Personal Profiles. The personal profile focuses on five areas that are essential for productive learning. It looks at the student’s overall self-discipline towards his studies. Co-operation, involvement, classwork, organisation and homework, are graded as Consistently, Usually, Sometimes or Rarely.

YEAR 10 SUBJECT SELECTION PROCESS

The College recently conducted two important events focused on providing support to Year 10 students and their parents / caregivers in the selection of a path of study as they prepare to enter their senior years.

All students and parents gathered for an Information Evening on Tuesday 16th June. This was followed by individual interviews on Wednesday 23rd June, between members of staff, students and parents providing guidance in subject selection. The College is committed to this targeted intervention at this most critical time in our students’ academic development, and value any feedback from those involved.

Mr Chris Shields - Director of Teaching & M-Learning
Blessing & Opening New Buildings

Friday, 14 August 2015
5.00 - 7.00pm

An invitation to parents and friends of the Marcellin Community, members of the Old Boys' Association and past college captains to join us for the opening celebrations of our new buildings.

RSVP due: Maryanne.Davis@syd.catholic.edu.au

Light refreshments provided.
Music Corner

On Tuesday, 23 June, the Year 8 cohort were privileged to witness a truly talented musician and amazing guitarist in Mr Terry Murray, with his show “Fretwork’. Terry is a long time guitarist who has worked alongside some big name artists - Pink Floyd, Jimmy Barnes, Tommy Emmanuel and Tom Jones, as well as featuring on a number of TV shows and radio stations.

Terry led the boys through a 1 hour showcase of what you can really do with an electric and acoustic guitar, and the students were left in awe as he demonstrated amazing guitar skills, giving new meaning to the term ‘Guitar Hero’.

Miss Daniela Gamma
Music Coordinator

The Music incursion was an exciting time for us. It showed me in particular how exciting music can be and how much fun it would be to learn other instruments. For me, I already know how to play the drums, but knowing how to play another instrument would also be great. I enjoyed listening to Terry play the guitar and show us his amazing music skills. It opened my eyes and he convinced me to choose music as an elective in Year 9. The experience was fun and showed us that there’s so much more to music that meets the eye.

Alejandro Belmont 8.1

Guitarist Terry Murray was very entertaining in his playing and talking to us, as he brought the audience into his show. He is a very good guitarist and I learnt from him ways to entertain people and make them laugh. In class we learnt the guitar so it was very appropriate that we had Terry come and play his guitar for us. The music incursion is a time for us to watch a person play guitar and it was a fun and well experiencing time most of the boys felt very happy and they loved the way he played the

Fletcher Guthrie 8.4

Updating Student Information

From time to time the CEO is required to provide student details and background data to Government agencies. This is particularly important to note at Census time and for the August Special Circumstances applications to be submitted to AGDET. Parents and guardians are able to access the CEO Privacy Policy - Standard Collection Notice on the CEO public website

Italian Incursion

On Wednesday, 24 June, Head Chef Luca and his assistants from Piatto Perfetto Cooking School came to Marcellin to give Year 8 and Year 9 elective Italian classes a very special cooking lesson.

They taught us to make ‘un Saleme di Cioccolato’ Yum! We were organized into groups of three or four and took turns in doing the various steps to make the salami. We learnt many cooking terms such as “la terrina”, which is bowl and “aggiungi” which means “to add”. After we made the recipe our salami was put in the freezer and we got to try some that they made earlier. We had lots of fun, but the best part was definitely the eating at the end.

Thanks Chef Luca, we hope to see you again soon!

Gian Cornale 8.1

Yr 10 Mathematics investigating surface area and volume of household items through practical measurement.
Year 9 Visual Design

In Term 2, Year 9 Visual Design students undertook a unit of work titled ‘Finders Keepers’. As part of this task, students were required to design a functional object from recycled or found materials that is, to bring new life and function to old objects.

Over the term, students researched, planned and created their new object using a variety of construction techniques. They searched and rummaged their worlds to source their materials. Students produced designs such as clocks, lamps, wearables, bags, candle holders, chairs and shelving from anything from old skate-decks, piping, books, guitars, cutlery, vegetable steamers, duct tape, wet-suits and the list goes on! The students and I were very pleased with the final designs.

Finders Keepers artists:
1. Jamie Cross
2. Kevin Chowdhury
3. Joshua Reddy
4. Matthew Trlin
5. Jayden Ghattas
6. Richard Polieri
7. Toby Morrison
8. Khava Black

Miss Katherine Toohey
Visual Arts Teacher
Religious Education

Newman Stream

Recently in Religious Education, the Year 10 Newman boys have been focusing on some of the major issues facing the Catholic Church. These issues ranging from bioethical concerns to the recent Pastoral letter from the Australian Bishops have given us plenty to discuss.

As an appropriate form of discussion, we hosted and filmed our own version of Q&A. The boys selected, at random, four famous personas who would have something to add to the conversation. The boys did a wonderful job and the conversation will no doubt continue into Term 3.

Extra-Ordinary Ministers of Holy Communion Course

At the request of the Archdiocese, Marcellin College hosted an Extra-Ordinary Ministers of Holy Communion Course. The course, facilitated by Fr Don Richardson, saw schools come from all over Sydney to Randwick. Five students from Marcellin completed the course and can now distribute the Eucharist at school and also in their local parishes.

Mr Ian Laing
Religious Education Coordinator
Koori Kids Day - *lore* performance

On Wednesday, 17 June 2015, a group of Indigenous students from Years 7, 8, 9 and 10 attended “lore” - a unique contemporary dance form with its compelling Australian storytelling expression - presented by Bangarra at the Sydney Opera House.

Bangarra is an Aboriginal and Torres Strait Islander organisation and one of Australia’s leading performing arts companies. They are widely acclaimed nationally and around the world for their powerful dancing, distinctive theatrical voice and utterly unique soundscapes, music and design.

The performance was a vibrant portrayal of different aspects of life for Aboriginal and Torres Strait Islander people. The boys watched two performances, Sheoak and I.B.I.S. which explored themes of identity, inequality, climate change and sustainability with a hopeful and positive outlook for the future.

The audience of Koori Kids were able to engage with the performers and choreographers after each performance and gained valuable insights into the story of the dances. The boys were great ambassadors for Marcellin and their culture.

Mr Paul Leary
Indigenous Liaison

SUBJECT SPOTLIGHT

Technological and Applied Studies (TAS)

Choosing which subjects you want to study in the future can be daunting, but if you rely on your passion and ability you will make a great choice! Good subject selection makes school life more enjoyable and creates the foundations for a lifetime of learning.

Why select Technological and Applied Studies (TAS) subjects?
TAS subjects have a tendency to follow the model of Project Based Learning (PBL) and allows the learning experience to be authentic. PBL develops a deeper understanding and encompasses 21st century skills such as:

- Personal and social responsibility
- Visualising and decision making
- Planning, critical thinking and reasoning
- Creativity
- Comprehensive communication skills
- Choosing the most appropriate technology for the task

Another feature of TAS electives is the cross-curricular links. Students use skills and knowledge from many other key learning areas in a practical way. For example, studying the principles of particle theory is tested by creating a hydraulic arm which moves items from one place to another. Students can then start to see how their subjects all work together in practical ways.

Design and Technology Subject Profile - Year 9
In response to the Newman Stream Enrichment Program, the TAS Department introduced Design and Technology into Year 9 last year which has been an enormous success. Students collaborate to solve authentic problems in an active way and utilize digital technologies such as 3D printing, Photoshop, Illustrator and AutoDESK Inventor to turn their ideas into physical reality!
Design and Technology Subject Profile - HSC

Students are required to develop a Major Project for their HSC. This can involve developing a product, system or environment to solve a problem or address a genuine need.

This year many of the Year 12 students have utilized the College’s new technologies, such as 3D printing. Extending the skills developed in earlier years, the boys have created truly innovative projects that integrate elements of researching, critical analysis, time management, finance management and creativity.

A showcase of these works will be held at the College on Friday, 17 July and we welcome all members of the Marcellin community to come and see the talent which will be on display.

Industrial Technology Timber Subject Profile - Year 9

Students create three projects in Year 9 Timber: a cheese board, timber chest and a toy jeep. Each project introduces new skills and builds on previously learnt processes. During the project, students use 3D software, AutoDESK Inventor, to produce detailed drawings, research materials and make judgements on materials and processes used.

Industrial Technology Timber Subject Profile - HSC

HSC Industrial Technology Timber is an opportunity for the students to showcase their passion and skills learnt in previous years.

The brief to HSC Industrial Technology students is to create an item constructed from timber. Students further develop their skills in fine furniture making, researching, critically analysis, time management, finance management and timber finishing.

Ms Peta Bourke
TAS Coordinator
P&F Social Night - Thank God Its Friday Wish List

Huge preparations are underway for a great night of fun on Friday, 28 August. Tickets will go on sale on Day 1 Term 3 so be sure to visit the website and book online.

Raffle tickets will also go home on Day 1 Term 3. We would hope that ALL FAMILIES support the raffle. Remember that this is a “fundraising” event and all money raised will go to our Bursary fund. Tickets will be sent home with all students and we ask that EVERY family returns one SOLD book. Any extra books sold by students will be a BONUS! We especially ask that parents who cannot attend the function support the raffle.

We have prepared a “wish list” and hope that parents are able to help us achieve some of the items from our list below:
- Accommodation/hospitality/travel vouchers – any parents who work in or have contacts in the hospitality/accommodation/travel industry are asked to see if their business can donate vouchers. We are hoping to put lots together to make a great “get away” package
- Hotel/hire industries – we would like to set up a bar table and bar stools. If we have to hire, it will eat into the money that we are hoping to raise on the night. If anyone has a contact who light be able to “lend” these to us for the evening we would be most grateful.
- Plastic glasses – as we will be selling alcohol we would like to use high quality plastic glasses. It will be a safer option with all the dancing and saves time with cleaning and storage. Once again however, it is a cost that we need to absorb. Does anyone have contacts in the packaging industry or similar who may be able to get us these at a reduced price?
- Decorations – if you have contacts and can get “donated” decorations, we would be delighted! The theme will be FUN! FUN! FUN! So anything will be appreciated.
- ANY OTHER DONATIONS – we still need more donations for our silent auctions – no matter how large or small. We will package vouchers and items together to make “themed” gift packs – e.g. “Holiday Fun Pack”, “Lifestyle Gift Pack”, “Beauty Pack”, “Home wares Gift Pack”, etc. If you cannot donate a voucher or goods from your place of work you may consider buying a few small items and sending them in - especially if you are unable to support our function on the night. These items could include beauty products, chocolates, books, fashion accessories, etc.

WINTER SEASON – Rugby League and Soccer

Last week we were scheduled to take on Ashfield in Round 7 of the MCC Winter season. Unfortunately this round was washed out due to poor weather. Yesterday we completed the previously washed out round of competition against Bankstown (all results included below). This round also saw the rare occurrence of ‘Marcellin v Marcellin’ in both the U13 and senior divisions of Rugby League. While the B’s proved too strong for the C’s in both divisions, they were very ‘willing’ contests played with great spirit. This was a successful day of competition for our teams in both Soccer and Rugby League with a total of ten victories to complete the rounds for the winter season. We can look forward to the majority of teams qualifying for the Semi Finals, which are to be played in Week one of Term 3.

CCC CUP – RUGBY LEAGUE

On Wednesday, 24 June, our A Grade Rugby League team played their ‘Round of Sixteen’ match of the CCC Cup against St Dominic’s Kingswood. After conceding the first two tries we hit back with the next and from there the teams traded tries, with Marcellin going into halftime behind 24-16. Both teams struggled to maintain possession and were punished on the scoreboard accordingly.

The most pleasing aspect of the second half performance was keeping our opposition scoreless. We crossed for two converted tries to claim a 28-24 victory and progress to the quarter finals. Try scorers for the match were Nicholas Mougios, Lachlan Lam, Jonathan Mitsias, Cooper Malcolm and Joshua Natoli, who also earned the ‘Man of the Match’ award for his efforts with the ball in hand and tireless work in defence. The next match will be played early in Term 3.

SPECIAL ACHIEVEMENTS - AFL

Congratulations to Jack Rheinberger who competed at the NSW All Schools AFL Carnival as a member of the U15 NSWCCC team. Courtesy of his consistent performances throughout the carnival, Jack has been selected as a ‘shadow’ player for the NSW All Schools team that will compete at the national championships in July.

SPECIAL ACHIEVEMENTS - CROSS COUNTRY

Ten of our students recently competed at the NSWCCC Cross Country Championships as members of the MCC Cross Country team. While all boys performed well, a special congratulations must go to Anthony Touma, Harrison Lewis and Tom Scullion (pictured right respectively) who each achieved selection in the NSWCCC team. In their respective age group races, Anthony finished third while Harrison and Tom both finished seventh. Best of luck to these boys as they compete against some of the best runners in NSW at the All Schools carnival in July.

SPECIAL ACHIEVEMENTS - RUGBY UNION

Jonathan Mitsias and Will Harrison represented NSWCCC at the recent NSW All Schools Rugby Union Under 16 Trials. The ’part time’ Rugby CCC team performed extremely well, winning two of their three matches. In doing so they defeated traditional rugby associations GPS and CHS. CCC finished third overall in the tournament out of the 8 associations assembled. Johnny and Will were outstanding, making valuable contributions to the success of the team and should figure prominently in discussion for selection in the NSW All Schools team. Congratulations boys!
